

To our valued customers,

With the onset of COVID-19 virus we would like to reassure you that your health and safety and the health and safety of our team are more relevant today than ever before.

While we have always provided our services with an approach to “safety first” we are taking more steps to ensure the safety of all.

We have directed our staff to ask a few more questions when you call in than in the past to insure everyone’s safety is being addressed. We would like to ensure you that none of our staff have travelled in the past month, so all are healthy at this time.

At this time we are open for business. However, our office/store front has reduced its hours. That said as always, we have a service technician available 24/7. Please do not hesitate to call us for service.

We are all facing challenging times however, please be assured that our company core values put safety first for everyone.

Sincerely,

The staff of Peterborough Refrigeration Heating and Air Conditioning Limited
