Lennox' **Feel The Love™** program brings much needed heating and cooling equipment to deserving families and front line workers across the U.S. and Canada who need a helping hand.

Lennox donates the HVAC equipment, participating Lennox dealers donate installation materials and time, and the family that receives the donation pays NOTHING!

Nominees are selected to receive donated HVAC equipment based on a range of criteria, including (but not limited to) involvement in their community, military service, or financial hardship. **Essentially, if you think someone needs and/or deserves it, send us your nomination and tell us their story.**
